Made from Sugar Cane Fiber “Bagasse”, the fibrous waste left over after the extraction of the sugar from the cane.

Tolerate both high (212 F.) and low heat applications holding either wet or dry food.

These products are sturdy, grease and cut resistant, and microwave/freezer safe and is the most cost effective replacement for Styrofoam, plastic or paper plates.

Our sugarcane products for compostability are freezer and microwave safe.

Q1: Are you a manufacturer?

A1: Yes, we have our own factory. We have all necessary equipment and technology to handle customers' special requests. Our monthly production capacity is big enough for your orders.

Q2: When can I get the price?

A2: We usually quote within 24 hours after we get your inquiry. If you are very urgent to get the price, please call us or tell us in your email so that we will regard your inquiry priority.

Q3: What is your terms of delivery?

A3: We can accept FOB, CIF, you can choose the one which is the most convenient or cost effective for you.

Q4: Are samples free?

A4: We are pleased to provide free samples, while courier shipping costs for customers'

account. Any special requirements need to be negotiated with us.
